We are clocking turnover of 135 Million USD+ on year on year basis. Mr. Rajneesh Aggarwal coming from a globally renowned Business family did his Masters in Business Administration from Oklahoma University (U.S.A.). While doing his studies in Business Administration, he noticed that even big brands were not able to get quality Agri products for their own brands. After which he founded Jashan in 2001 with the idea to merge the gap between the ones who had excellent Agri produce and those who were looking for excellent quality products for their brands. Currently, with more than 2 decades of experience, we are doing it successfully. At Jashan we welcome you with open arms for **Business Opportunities** that are profitable for you, our suppliers and us.
